

## Half RU Universal Flat Patch Panel

### APPLICATION

Leviton's Half RU Universal Flat Patch Panels provide high density patching where rack space is a premium. This makes them ideal for use in many applications including health care, manufacturing, datacenters and other environments where rack space is limited. Universal Flat QUICKPORT™ Patch Panels are available in 24 ports and designed to provide a high-density option with a low profile.

### SPECIFICATION

Patch panels shall be available in a 24-port configuration and shield data from electromagnetic and radio frequency interference. Panels shall accept both shielded and unshielded QUICKPORT™ jacks and connectors. Panels shall have a black powder coat finish with white silk screening. Panels shall meet or exceed ANSI/ TIA-568.0-E, and IEC 60603-7.

### FEATURES & BENEFITS

- Panels allow mix-and-match of shielded and unshielded QUICKPORT™ jacks and connectors
- Panel includes hardware to accept standards-compliant grounding connectors
- Shielding provides EMI/RFI protection and data security
- Included Rear Cable Manager supports incoming copper cables
- Mounts on standard 19-inch racks and cabinets

### DESIGN CONSIDERATIONS

- Verify rack is grounded according to commercial building grounding and bonding requirements for telecommunications

### STANDARDS & REGULATIONS

- ANSI/TIA 568.0-E
- IEC 60603-7

### MECHANICAL SPECIFICATIONS

Dimensions:	See page two
Materials:	18-gauge steel, black powder coat
Temp. (Storage):	-40 °C to +70 °C (-40 °F to +158 °F)
Temp. (Installation):	Refer to cable installation temperature
Temp. (Operating):	-10 °C to +60 °C (+14 °F to +140 °F)
Humidity (Max.):	95% relative humidity, non-condensing

### COUNTRY OF ORIGIN

China
